RECOMMENDATIONS FOR USE

- It is the responsibility of the end user and not the manufacturer to determine glove suitability for the intended use.
- Storage: Ideally stored in dry conditions between 10°C and 30°C in the original packaging and sheltered from direct light. Do not exceed 40°C.
- Cleaning/Maintenance: Both new and used gloves should be thoroughly inspected before being worn to ensure no damage is present. If any damage is found on the gloves they should be disposed of. Gloves should not be left in contaminated condition if reuse is intended in which case gloves should be cleaned as far as possible. To clean, wipe with a damp cloth.
- Note: The performance characteristics of worn gloves may differ from the results shown.
- CAUTION! Avoid using near moving machinery due to entanglement hazard.
- Not recommended for use with liquid chemicals.
