

Mfr. Model # 75/50 KA

ABUS Padlock: Gold, Unfinished, Brass, Std Shackle, Steel, 1 1/8 in Vert Clearance

Product Description

These keyed alike padlocks have a standard shackle, which means the shackle's vertical clearance is less than 1-1/2". Their smaller clearance makes them less vulnerable to cutting than long shackle padlocks. They are used across a wide variety of applications, such as securing files in a cabinet or protecting individual toolboxes. Keyed alike padlocks open with the same key, allowing one authorized user to access multiple locks

Shackle Type Standard Shackle	Number of Keys 2
Key Code 7561	Brand ABUS
