

Mfr. Model 140DLH

MASTER LOCK Padlock: Gold, Brass, Unfinished, Long Shackle, Steel Shackle, 2 in Vertical Clearance. Keyed Different.

Product Description

These keyed different padlocks have a standard shackle, which means the shackle's vertical clearance is less than 1-1/2". Their smaller clearance makes them less vulnerable to cutting than long shackle padlocks. They are used across a wide variety of applications, such as securing files in a cabinet or protecting individual toolboxes. Keyed different padlocks open with unique keys, which limit access to a single user.

Shackle Type **Long Shackle**

Vertical Shackle Clearance **2 in**

Horizontal Shackle Clearance **13/16 in**

Shackle Diameter **1/4 in**

Shackle Material **Steel**

Shackle Finish **Zinc-Plated**
