3M™ Particulate Respirator 8210, N95

Product Details

This classic disposable N95 particulate respirator is designed to help provide comfortable, reliable worker respiratory protection against certain non-oil based particles.

3M™ Particulate Respirator 8210, N95 is a disposable particulate respirator that is designed to help provide reliable respiratory protection of at least 95 percent filtration efficiency against certain non-oil based particles. This respirator is designed for use for particles such as those from grinding, sanding, sweeping, sawing, bagging, or other dusty operations. This respirator can also help reduce inhalation exposures to certain airborne biological particles (examples: mold, Bacillus anthracis, Mycobacterium tuberculosis), but cannot eliminate the risk of contracting infection, illness, or disease. The respirator incorporates 3M's proprietary technology with advanced electrostatically charged microfiber filter media designed for ease of breathing. This respirator is compatible with a variety of protective eyewear and hearing protection.

This particulate respirator is NIOSH (National Institute for Occupational Safety and Health) approved for environments containing certain non-oil based particles and provides at least 95 percent filter efficiency.

Breathing hazardous particles can pose a risk to your health. NIOSH, a Federal government regulatory agency, has tested and approved the 3M Particulate Respirator 8210, which is designed to help reduce exposure to certain airborne particles.

WARNING: These respirators help reduce exposures to certain airborne contaminants. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. In the U.S., a written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see package instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

Specifications

Aerosol Type	Non-Oil
Boxes per Case	8
Category	Respiratory Protection, Disposable Respirators, General Purpose Respirators
Class	Comfort
Color	White
Exhalation Valve	No
FDA Cleared	No
Features	Advanced Electrostatic Media
Flame Resistance (ASTM D2859-96)	No
Fluid Resistant (ASTM F1862)	N/A
Natural Rubber Latex Components	No
Number per Box	20
Packaging	Bulk Case
Product Line	Respiratory Protection
Product Type	Dust and other Particles
Recommended Application	Grinding, Dry Chemical Handling, Petrochemical Manufacturing, Bagging, Airborne Biological Particles, Sanding, Pharmaceutical Manufacturing, Lead Abatement, Assembly and Mechanical, Foundry Operations, Cleaning
Recommended Industry	Food Safety, Heavy Infrastructure, Transportation, Commercial buildings, Construction, Design & Construction, Mining, Food Processing, Oil & Gas, General Manufacturing
Respirator Style	Cup
Size	Standard
Standards/Approvals	N95
